PAL
WIRELESS WIEGAND CONTROLLER

Virtual credentials when you want.
Physical credentials when you don't.

Wireless - PAL requires no network connection. Its a true plug and play system

7-day automatic unlock/lock schedule

Works with ANY Wiegand device (Transmitters, cards, fobs, RFID tags, etc.)

Cloud based - easy to use software

APP Based Virtual Credentials - Open the gate or door through an iOS or Android device

1-Input that will alert an unlimited amount of email addresses if your gate or door is left open for a determined amount of time

Manage, restrict, and control all users (Both wiegand and virtual credentials)

Up to 60,000 users

CLOUD-BASED SOFTWARE

The PAL Wireless Wiegand Controller is operated through an intuitive cloud-based software that gives flexibility to use it from a desktop or through the dedicated PAL application.

You are able to manage multiple access points with a PAL device from a single dashboard, view unlimited event logs, and manage user access. This unparalleled management made easy gives you more power to manage access control.
